

VDA 6.3 Auditor – Requalification

From 1/1/2023, the validity of the VDA 6.3 auditor's certificate is 5 years. After the validity period indicated on the certificate, it is necessary to undergo recertification. If the applicant meets all the requirements, the exam is not passed. Recertification is in the VDA QMC license. Newly, only certificates are issued in electronic form. Auditor cards are no longer issued. Each holder of the VDA 6.3 auditor certificate must demonstrably demonstrate knowledge of Core tools - either by successfully completing the Quiz or by completing the Automotive Core tools course for auditors (at VDA QMC - ID 417).

Charakteristika

Requirements for renewal of the VDA Auditor 6.3 certificate from 1.1.2023:

Validity of the VDA 6.3 auditor certificate - 5 years.

- To meet the recertification requirements, at least **5 process audits must** be documented, **with a minimum duration of 10 audit days**. The applicant should provide evidence of auditing each element of P2-P7 at least once, it does not have to be in 1 audit. A maximum of 2 remote or hybrid process audits will be accepted. **To be completed on the application form.**
- Failure to submit the required audits will require a one-day [Workshop](#).
- Proof of training Upgrade course VDA 6.3:2023 - 4 hour face-to-face or online training [Upgrade course VDA 6.3:2023 - Czech Society for Quality \(csq.cz\)](#).

Note the change in the number of audits to be documented:

Proof of 10 audits will now not be required. It will be required at subsequent recertification after the first 5 years of the certificate.

Deadline for submitting recertification applications:

The application for recertification can be submitted no earlier than 4 weeks before the expiry of the certificate and no later than 3 months after the expiry of the certificate. **If your certificate lapses by more than 3 months, you will need to retake the exam.**

Doplňkové informace

The successful candidate receives a VDA 6.3 auditor certificate electronically, which is registered in the VDA QMC and CSJ database.
